

Adjusting the System Volume (Desktop)

Students who are taking a test that contains audio or text-to-speech can adjust the volume within the test. (This feature is available only when using a desktop secure browser.)

Figure 1. Adjusting Volume Setting in the Test

1. Click the wheel icon in the upper right corner (next to the [?] help button). The System Settings window will open.
2. Move the Volume slider to the *estimated* optimal volume based on the position of the slider.
3. Select "OK" and return to the test to check the volume of the audio.
4. If volume is not ideal, select the wheel icon again and adjust the slider again as appropriate.
